

BLOOD MAY BE SHED
AT CENTERVILLE IA.MILITIA CALLED FOR BY THE
SHERIFF.

The Civil Authorities Cannot Cope With the Men and the Situation is Critical in the Extreme—Cincinnati Strike Still Unsettled—Labor Trouble at Other Places.

Centerville, Iowa, April 12.—Affairs at Cincinnati seem to be getting worse. Several hundred miners have been there for a week, trying to get the men who are working for a lower rate to come out. The sheriff is now there, and has telegraphed for Company F, Second Regiment, and it is now on its way.

Cincinnati, Ohio, April 12.—Secretary Bishop of the state board of arbitration arrived yesterday from Columbus, and is trying to adjust the trouble between the clothing manufacturers and 8,500 strikers of the Coatmaker's union. The clothing manufacturers began sending cloth away yesterday to other points to be made up, and they say that they have arranged for work in that way.

Pineville, Ky., April 12.—Seventy-five miners struck at the coal mines of the Brockbridge and Pineville Syndicate at this place yesterday. The strike was caused by the system used by the operators in weighing and docking.

Lowell, Mass., April 12.—The Sterling mills, employing 250 hands, were closed yesterday owing to a strike of seventy-five spinners who demanded the restoration of the 10 per cent cut in wages made some time ago and 5 per cent additional.

Visiting Miners Cause Trouble.

Ottumwa, Iowa, April 12.—The coal mining strike situation at Cincinnati grows more critical every moment. The visiting miners from Centerville, Mystic, Jerome, and other points, who are at Cincinnati, have determined to stay there and get the men out. They sent word to their fellow workmen at Centerville for all to come to Cincinnati and bring something to eat with them. They propose to camp out and are determined that the Cincinnati men shall not work at reduced wages. The situation is serious and is liable to become critical and lead to bloodshed at any moment.

Coal Operators in Convention.

Cleveland, Ohio, April 12.—Several Pittsburgh coal operators, among them H. E. Tenney, B. F. Robbins, and John Blythe, were in the city yesterday in consultation with heavy coal handlers. There was a long secret conference in the office of M. A. Hanna. Their mission was to make whatever adjustment is necessary concerning the season's shipment of coal up the lakes in the event of a strike among the miners. It was declared after the meeting that no definite scheme of procedure was decided upon.

What Pittsburgh Will Want.

Columbus, Ohio, April 12.—Patrick McBryde, secretary of the United Mine Workers of America, said yesterday for publication that Pittsburgh will insist that the differential of 9 cents between western Pennsylvania and Hocking Valley prices for mining be wiped out.

Nashville, Tenn., April 12.—The senate yesterday adopted a joint resolution requesting congress to pass a free silver coinage bill at a ratio of 16 to 1 by a vote of 14 to 10; not voting 3.

LIQUOR MEN DOWNED.

Michigan House Tears to Pieces the

\$400 Uniform License Fee Bill.

Lansing, Mich., April 12.—The friends of a \$400 uniform liquor license fee met yesterday in the house. In addition to a uniform tax of \$400 the bill made other concessions to the saloon men, particularly allowing them to remain open New Year's, Washington's birthday, Labor Day and Fourth of July, also to open after the closing of the polls on election day. The entire bill was wiped out, except the first section, and that was amended by raising the tax to \$500. The bill was then passed by a vote of 72 to 22 and was given immediate effect. The only change the bill accomplishes is to make the tax upon the sale of beer \$500, the same as spirituous liquors. Its fate in the senate is uncertain, but it is understood the committee on liquor traffic is averse to making any change in the present law.

New Counterfeit Treasury Notes Out.

Washington, April 12.—Chief Hazen of the secret service, has issued a circular of warning against a new counterfeit of a \$5 treasury note of the series of 1891, a specimen of which was circulated in Columbia, S. C., and was discovered by Mr. Work, teller of the National Park bank of New York city. The counterfeit is a photographic reproduction touched up with pen and ink and bears the treasury number B. 3776724.

Refuse to Reopen the Case.

Indianapolis, Ind., April 12.—The Supreme court yesterday refused to grant a rehearing in the fee and salary case. Some time ago the court held the law of 1891 invalid as to treasurers, sheriffs, and recorders because it failed to fix the salaries of these three officers in the county of Shelby. The court's decision is an answer to a petition filed by Attorney General Ketcham asking the court to resort to the bill as originally engrossed, and which was without error, thus making the entire law constitutional.

High Water in the Connecticut.

Hartford, Conn., April 12.—Annie Pearl, the 3-year-old daughter of Maurice Pearl, strayed down cellar at her home and was drowned in the water there two feet deep, which had set back through the sewers from the Connecticut river. The river is still rising slowly at midnight, marking 22 feet 5 inches above low water. Residents in the lower part of the city are using boats.

SHOT IN THE STREET.

John L. Sanford Killed by William Goebel in Covington, Ky.

Cincinnati, Ohio, April 12.—In the business center of Covington, Ky., John L. Sanford, cashier of the Farmers and Traders' bank, was killed at 1:30 p. m. yesterday by State Senator William Goebel. Both fired at each other on the crowded street. The factional agitation over the affair runs high on this side of the river, as well as in Covington and other Kentucky towns.

Goebel and Sanford were the leaders of two bitterly contesting democratic factions. The feud is an old one practically, but it lately became intensely personal. The meeting yesterday showed both were well prepared for trouble.

Senator Goebel and Attorney General Hendricks were walking on Madison street. As they approached the First National bank, Sanford, who was leaning against the railing, approached quickly toward Senator Goebel and spoke to the latter, at the same time drawing his revolver. Senator Goebel turned to one side just as Sanford fired. The bullet from Sanford's revolver passed through Senator Goebel's coat and his trousers in two places over the hips. Senator Goebel then drew his revolver and fired, his shot taking effect in the left side of Sanford's forehead. Sanford's mansion is four miles out. His family telephoned friends to bring him home immediately, but he could not be removed. Sanford's son was the only one of the family who reached him before he died. The victim never regained consciousness. He died in less than an hour.

After the shooting, when he saw Sanford fall, Senator Goebel returned to the courthouse, stopping only a moment, and then went to police headquarters and gave himself up.

Mr. Sanford was 57 years old. His wife was a Marshall and a sister of the celebrated Thomas Marshall of Kentucky. Mr. Sanford's grandfather was distinguished in the state, being one time a state senator and a member of the constitutional convention.

Senator Goebel is a successful business man as well as a lawyer. He is 47 years old, unmarried, and a native of Pennsylvania. He located in Covington when quite young. He is out on bail.

GROWLING AT JAPAN.

Russia Makes a Threat That Causes

Much Surprise.

St. Petersburg, April 12.—The Novae Vremya says that if Great Britain has approved the territorial demands of Japan in regard to Manchuria and Korea Russia will consider herself relieved of the obligations of common action, and will oppose Japan on land and on the sea.

Washington, April 12.—The unmistakable threat against Japan made by Russia in its semi-official organ, the Novae Vremya, has caused much surprise in diplomatic circles here. It was supposed that Russia had a good understanding with Japan as to the terms of peace to be held out to China, that there was an entire agreement upon the propositions touching Korean independence, the acquisition by Japan of Formosa and Port Arthur, and the exaction of an indemnity.

NOT FOR SUPERIOR.

Wisconsin Assembly Advances the La

Crosse Normal School Bill.

Madison, Wis., April 12.—There was a heated argument in the assembly yesterday over the measure providing that the proposed seventh normal school be located in their city, as they claim they are rightfully entitled to it, having deposited a bonus of \$60,000 with the state treasurer over a year ago as a guaranty of good faith. The normal school regents later rescinded their action to locate the school at Superior. The bill was ordered to third reading by a vote of 48 to 24.

The substitute for the Prochnow anti-blacklisting bill was concurred in by the senate. Senator Phillips' bill to prohibit the sale of intoxicating liquors within two and one half miles of the Wisconsin Veterans' home at Waupaca was passed.

Lives in Peril.

New York, April 12.—Fire broke out at 9 o'clock last night in the five-story brick building at the corner of Columbia avenue and Ninety-fourth street, owned by Hyman Brothers, liquor dealers, and occupied by the Colonial bank. Eleven families occupied rooms on the upper floors and a number of daring rescues were reported. The building was valued at \$125,000 and the loss is estimated at \$100,000. It is thought the insurance will cover damages to building and bank fixtures, but most of the persons living in the building did not carry any insurance upon household goods. It was reported that one servant girl was burned to death.

Supreme Court to Pass on Pensions.

Washington, April 12.—James Tanner, national commander of the Union Veteran legion, has issued a circular requesting the contribution of \$10 from each of the encampments to pay the expense of carrying to the supreme court a test case involving a sufficiency of the thirty-day notice required to be given in pension cases under the act of December 21, 1893. The circular stated that ninety-nine out of every 100 notices sent out by the commissioner of pensions since the passage of the act, and which notices have been the basis of reductions or dropping, have not been in compliance with the terms of the statute.

Chief Justice Horton Steps Down.

Topeka, Kan., April 12.—Albert H. Horton, chief justice of the Supreme court of Kansas, handed his resignation to Gov. Morrill last evening. It was at once accepted, and Gov. Morrill appointed Judge David Martin of Atchison to succeed him. Judge Horton has been chief justice since 1877, and was a prominent candidate for United States senator when ex-Senator Ingalls was chosen for the first time.

BERGLUND HELD UP
BY BRUTAL THUGSMARINETTE MAN POUNDED
AND ROBBED.

Marinette, April 12.—Footpads did a bold and brutal job when they held Charles Berglund up in the city last night. Berglund was walking alone in the street when three thugs pounced upon him from a dark corner. He could offer little resistance against them and they beat him brutally. After pouncing him into helplessness they secured what money and valuables he had and left him. Charles Anderson was arrested by the police this morning on the charge of being one of the robbers.

Interesting developments are expected.

HIGH WATERS RECEDING.

Railroad Traffic Remains at a Standstill

Between Bordentown and Trenton.

Bordentown, N. J., April 12.—The flood has fallen eighteen inches since yesterday, but the railroad traffic between here and Trenton is still at a standstill, except by way of Jamesburg, Philadelphia and New York passengers are being driven to Trenton in hacks and private conveyances in order to reach their destinations. One train left this morning for Camden, but no trains have reached here from that city. There are several washouts on the railroads. The office of the Delaware and Raritan Canal company is still flooded and the employees at the ammonia works and Willards, McPherson & Co.'s iron works have been compelled to stop work on account of the high water. No mails or newspapers have reached the city yet from either north or south.

Easton, Pa., April 12.—The danger from the high water at this place has passed. The Delaware river this morning had fallen eight feet since yesterday and the Lehigh and Buskill rivers, which had overflowed their banks, are also receding rapidly. The trolley system is again in operation in all parts of the city, except to Glendon and Odenweldtown, where the roadbed has been badly washed out. The Edison light and power station, which had been flooded for two days, will be in operation to-night in South Easton and Phillipsburg.

NOTED MURDERER DEAD.

Dick Edwards, Slayer of Four Women

and One Man, Expires in Prison.

Denison, Texas, April 12.—Dick Edwards, alias Billy Leroy, convicted of the murder of Mrs. Hattie Haynes, committed here on the night of May 17, 1892, and sentenced to life imprisonment, died Sunday night at Huntsville prison.

It was believed that Edwards had killed three other women and wounded the fourth on that eventful night. He maintained his innocence to the last, and when approached for a confession replied that he had nothing to say and died with the secret locked in his heart. Consumption was the cause of death, after two months' imprisonment.

In the west Edwards was known as "Coyote Dick." He was well known in Salt Lake, where he was charged with the murder of Callahan in 1891. He was also credited with the murder of a woman in Chicago.

PAYS THE PENALTY.

Charles Hart Hanged at Columbus for

Double Murder.

Columbus, O., April 12.—Charles Harrison was hanged in the annex of the Ohio penitentiary at 12 o'clock this morning for the murder of little Ashley and Elsie Good in Paulding county, November 4, 1894. Hart was an ignorant lad of 18 years, and was nervous to the last. Although he made a confession after his arrest, he made the statement on the gallows: "I am not guilty of this charge." He was baptized in the Methodist faith before his execution. He died without a struggle, and death was pronounced in thirteen minutes and one-half minutes. Hart, after killing Ashley Good, assaulted little Elsie and then cut her throat. He then mutilated both bodies with a corn-cutter and tried to burn them on a pile of brush.

A BIG DAY'S WORK
DONE AT MADISONBOARD OF CONTROL BILL
PASSED BOTH HOUSES.

Governor Upham Will Sign It At Once—Fight Over Nothbohm's Dependent Children Measure—Library Building Bill Referred—Assembly Passed Game Law

Madison, April 12.—The board of control bill has passed both houses, and will be signed by the governor at once. Mr. Hall opposed the bill in the assembly as wrong in principle, but the fight was of no avail.

The Nothbohm bill, relating to the commitment of dependent children, which has been the bone of contention between the Catholics and Protestants, was laid over in the senate until this evening, when there will be a fight.

The bill authorizing the erection of a building for the State Historical Library on the university campus, was referred to the judiciary committee to look up the constitutional questions.

In the assembly, the fish and game bill was on the calendar as a special order. Many minor amendments were offered and most of them were killed; among them the one allowing the hunting of prairie chickens with dogs. The rules were then suspended and the bill passed.

JAPAN'S TERMS FOR PEACE NAMED

Independence of Corea and a Few Other

Things Demanded

Washington, April 12.—An authoritative statement of the terms of peace being negotiated between Japan and China has been secured from official sources. The statement is made in order to clear up much misapprehension arising from speculation as to the terms of peace. They are five in number, as follows:

1. Independence of Corea.
2. Permanent cession of the Island of Formosa to Japan.
3. Indemnity of 300,000,000 taels (Chinese coin worth \$1.33).
4. Permanent occupation of Port Arthur and immediate contiguous territory.
5. A new Japan-China treaty opening the interior of China to commerce.

The money indemnity is expressed in Chinese taels instead of Japanese yen. The tael is in reality a weight instead of a coin. It is considered silver money. While the face value at \$1.33 would be equivalent to \$399,000,000 in silver, it is said the actual value would be between \$210,000,000 and \$220,000,000 in gold. The fifth term, as to a new treaty, includes various trade features, such as free access of Chinese rivers. There is no demand for territory on the mainland outside of Port Arthur and its contiguous surroundings.

DELAY THE ELBE INQUIRY.

Owners of the Crathie Refuse to Allow

the Coroner to Examine Witnesses.

London, April 12.—No date has yet been set by the Suffolk coroner for the resumption of the inquiry concerning the death of the passengers and crew of the steamship Elbe. The delay is due to the fact that the owners of the steamship Crathie, which ran down to the Elbe, refuse to allow their witnesses to appear before the coroner on the ground that it would be prejudicial for the verdict of the English jury to be rendered before the action brought by the North German Lloyd company against them (the owners of the Crathie) in the courts of Rotterdam has been tried and decided.

Friedrichshagen, April 12.—Prince Bismarck, replying to a deputation representing the Germans of Odessa, begged his hearers to foster the political friendship which, he insisted, was so necessary to both Germany and Russia, adding: "Russia is certainly a better neighbor than many another." TWO MEN GET \$16,000 IN A HOLD UP
Bold Highwaymen Get the Money Intended For Colorado Miners

Cripple Creek, Colo., April 12.—The mail and express wagon which connects with the Midland Terminal railroad at Grassy was boarded yesterday about two miles from this city by two men, who overpowered the driver, Robert Smith, secured an express package containing \$16,000, and escaped on horseback. The holdup took place at 9:30 o'clock on the summit of Tenderfoot Hill. The men had been accommodated with a ride by the driver. After securing \$16,000 which was being shipped to the Cripple Creek national banks and several other valuable packages the robbers unhitched the two leading horses, mounted them and rode off rapidly into the mountains. Smith, who was weak and bleeding profusely, drove into the city as quickly as possible, and within twenty minutes from the time the robbery was committed Deputy Sheriffs Sterling and Jackson and 200 men started to scour the hills in search of the robbers. The two fugitives were soon traced to the Divide road north of town near Rhyolite mountain. After robbing the express they crossed over Cow mountain, and near Gillette they discarded the stolen horses and took a light buggy and horse which they had secreted in the timber and drove away. The men left the regular Cripple Creek & Divide road about six miles north of town and headed toward Alhambra. As soon as their course was determined word was sent to this place and a posse of fifty heavily armed men cut across the country on horseback to intercept the robbers. This was pay day at the mines and the stolen \$16,000 was to have been used in paying off the miners.

AFTER THE BEEF TRUST.

Secretary Morton Wants to Know Why

Prices Are Up.

Washington, April 12.—An inquiry which the secretary of agriculture has set on foot may be of a character which will give the Big Four of the cattle trust in Chicago and elsewhere something to think about. Secretary Morton is of the opinion that the increase in the price of beef, together with the depression in the price of cattle per capita, is a fact which requires explanation. The agents of the bureau of animal industry in all portions of the country have been directed to make the most minute inquiry as to the stock of cattle on hand and prices which they bring. They have also been invited to furnish to the secretary of agriculture their opinions whether any trust has been operating in violation of law to increase the price of beef. If such shall be found to be the fact it unquestionably prosecutions of the Big Four combine by the federal authorities.

A. R. U. Strikers Sent to Jail.

Fergus Falls, Minn., April 12.—In the United States court yesterday, Grant Mason of Barnesville was tried for obstructing the mails during the Great Northern strike last April. His conviction was followed by the conspiracy case against seven Barnesville men, and during its progress all agreed to plead guilty of obstructing the mails. The conspiracy case was then stopped, and Grant Mason, James E. Knowles, Robert Nelson, Thomas Pender, Fred H. Atkins, Charles Mallen, and Fred Roth pleaded guilty. Judge Nelson sentenced each to pay a fine of \$100, and until the fine was paid each to be committed to the Otter Tail county jail. Sentence, however, was not to become operative till moved by the district attorney. The effect of this is to allow the men to pay their fines in installments. These convictions are the first that ever occurred in Minnesota for obstructing the mails.

STORY OF PERRY'S ESCAPE.

One of the Poughkeepsie Asylum Fugitives Is Taken.

Poughkeepsie, N. Y., April 12.—Four inmates of the state asylum for insane criminals at Mattawan, including Oliver Curtis Perry, the Syracuse train robber, made their escape from the institution Wednesday and are still at large while a fifth, who participated in the break for liberty, was retaken. Those who made the attempt with Perry are Patrick Maguire, a very dangerous man, who once before broke out of the asylum; Michael O'Donnell and Frank Davis of New York city and John Quigley of Astoria.

Night Watchman Carmody was making his rounds at 11 o'clock and had passed from the main building into the isolation annex, where the dangerous prisoners are kept, when he was attacked by the five men, overpowered and deprived of his keys before he could make an outcry. Then the convicts fled toward the chapel. As they ran Keeper Carmody raised an alarm, which quickly brought out Superintendent Atchison and the guards. Perry and his companions, however, reached the chapel without being intercepted and through that room made their way to the roof through the scuttle. Then Perry slid down the roof to the eaves, from which he dropped to the ground, the fall being about twenty-five feet. As the others were following his example they were discovered and one shot was fired at them. Three of the prisoners followed Perry's lead and escaped. The fifth was too late, but he scrambled back into the darkness, where he remained until daylight, when he was forced to give himself up.

A large force of guards was sent to scour the country for the escaped convicts and word was sent to all points where it was thought they might appear. It is scarcely probable that the fugitives can long evade capture.

They were under San-tocildes, and left forty-five dead for the Cubans to bury. Should the formation of a republic be attempted the constitution adopted April 10, 1899, will be used.

Many of the German tenants who have raised large amounts of it on shares have become discouraged at the ruling low prices and will turn their labor in other directions. Buy fresh new garden seeds of Fred Vankirk. Seth Fisher, who has been very sick, is reported much better; as is also the youngest daughter of Mrs. Emma Fisher, who was very low with pneumonia. NEW LINE MAY RUN THROUGH THE CITY

KOSHKONONG VALLEY ROAD LIKELY TO HELP US.

It Will Take One of Two Routes, Either via Edgerton and Janesville Or Through Lake Geneva to Chicago—The Work Will Be Begun Very Soon.

Janesville may get another railroad line by the revival of the "Koshkonong Valley road" scheme. It is proposed to run the line either via Fort Atkinson, Elkhorn and Lake Geneva to Chicago, or via Edgerton, Janesville and thence across Rock prairie to the above point. W. L. Marey, the civil engineer, is at present looking over the country between Cambridge and Fort Atkinson preparatory to running preliminary surveys. The full corps of surveyors are expected the fore part of next week.

Arrangements have been entered into between the owners of the Koshkonong Valley railroad charter and right of way, whereby all their interests have been transferred to the new company, and it is said that the road will not only be completed between London and Cambridge, but extended both north and south to Chicago and to the head of the great lakes, as indicated by the road as changed in the new charter. It is the intention to push this enterprise as fast as possible, provided they

It was General Campos who suppressed the last rebellion in Cuba.

The Baltic canal is 63 miles long, with a general width of 229 feet. It will cost about \$29,000,000.

THE JANESVILLE GAZETTE

THE OFFICIAL CITY PAPER.

Entered at the postoffice at Janesville, Wis., a second-class matter.

DEMORALIZED DEMOCRACY.

The sober, thinking element of the democratic party that anticipated so much in the way of reform and good government, when democracy assumed control, is sadly disappointed at the results. The possibilities of the party were so flattering and the endorsement of public sentiment was so pronounced, that failure seemed impossible, and yet after two years of attempted rule, with absolute control of the executive and both houses of congress, the record is a story of disaster, and the future a vision of defeat.

That the party is more theoretical than practical, is very apparent to the most casual observer. The honesty of motive, no one questions, for the bitter element of the party believe in good government, and an honest effort has been made to carry out the platform pledges, on which the party was elected, but results have demonstrated that the principles were wrong and that the party is thoroughly incompetent.

Tariff reform, the issue to which the president clings so tenaciously, after a test of less than two years, has wrought national disaster and wide spread misfortune, yet in spite of these experiences many democratic leaders, profess to believe that the country is being benefited by the results, too blind to recognize the appeals of idle American labor or to note the beating of home industries for existence.

The income tax, of which democracy expected so much proves to be the greatest farce of the age, and is already consigned to the oblivion that it will meet as soon as the new congress convenes.

No great party ever lost caste so rapidly as the democratic party has done during the past year. From all parts of the country the universal verdict of incompetency is rendered. Even in the south, where the party was supposed to hold a life lease, dissatisfaction and disloyalty is very prevalent. That the party is doomed to defeat is generally conceded.

The country has reason to rejoice that the party will be retired at the first opportunity. The recovery to national prosperity will be necessarily slow, because some of the work of the last congress cannot be undone for some time to come, but confidence is already being restored and a better feeling prevails throughout the country.

Telephones through which Janesville people can call "Hello, New York" will soon be in place in Janesville, for it is now definitely settled that the Bower City will have the complete "long distance service."

T. J. Gallagher, superintendent of the construction force of the Wisconsin Telephone company was in the city yesterday, completing the surveys for the long distance lines. There will be a number of these lines radiating from Janesville. First will be one from Janesville to Beloit, this being intended to connect with the system in Illinois and south. Next will be a line from Janesville to Madison, taking in Edgerton and Stoughton. Then again from Janesville to Waukesha. From these trunk lines branches will be constructed to accommodate these intermediate points.

The line from Janesville to Waukesha will be the line upon which Janesville people will carry on their conversation with people in Milwaukee, Chicago and cities as far east as New York.

Superintendent Gallagher will soon have the construction force at work. The first line to be constructed will be that with Beloit, then the Madison line. The Waukesha line will probably be the last. With the long distance service, people here can carry on conversations with parties in any of the northern cities as understandingly as if using the best working of our local lines.

Manager Willitz, of the local exchange, is highly elated over the fact that Janesville will soon have a telephone service equal to any other city in the state, besides having connection with every principal city in the state and country. The material for these lines will be shipped here and distributed as wanted by the construction force.

JURY CASES TO COME UP MAY 6. Many Attorneys Are Busy With Matters in the Supreme Court.

The jury cases calendared for the April term of the Rock county circuit court will probably not be taken up before May 6. The term commenced on April 23, the day before the term of the supreme court at Madison in which a number of local attorneys have important cases. It is intimated that in view of these facts Judge Bennett will direct that the petit jurors for the April term be excused until May 6.

BENEATH A BURDEN OF SORROW. Ethan Allen.

Ethan Allen died at the Union house at 1 o'clock today, aged about fifty-five years. Mr. Allen had resided in Janesville upwards of forty years. He was a member of the Third Wisconsin cavalry but returning home after the war, with an impaired constitution, he was unable to engage in manual labor, but followed various light occupations. Some years ago he suffered a severe stroke of paralysis, and was sent to the Soldiers' Home in Milwaukee. Last winter he returned to this city, apparently improved in health, but a few days ago he was taken sick, suffering with a cold. Few of his acquaintances were aware that he was seriously ill and the announcement of his death will be a surprise to all. He leaves two brothers, Henry and Wesley Allen of this city. His wife died some years ago. The G. A. R. Post will probably arrange for the funeral at their meeting this evening.

Funeral of Patrick Hines. There was a large attendance at the funeral of Patrick Hines this afternoon. Services, conducted by Dean E. M. McGinnity were held in St. Patrick's church at 2 o'clock, at the conclusion of which the remains were taken to Mount Olivet for interment, a long procession of carriages filled with people accompanying the funeral party to the grave.

Mrs. Jane Hills. Rev. Dr. Sabia Halsey, of Court Street church, conducted the services at the funeral of Mrs. Jane Hills this afternoon at the home on Glen street. There was a large attendance, and at the conclusion, the remains were taken to Oak Hill for burial, the pall bearers being S. Hutchinson, Dr. G. H. McCauley, Thomas Poey, and William Winkley.

PLAN FOR A BIG FAIR THIS YEAR. All Hands Should Turn In and Help the Management Work.

The little burg of Elkhorn gives the biggest fair in Wisconsin and in return they get column after column of advertising in the papers and occasionally a page in the Chicago Herald. That kind of advertising does a town a great deal of good. If Elkhorn can do this there is no reason on earth why Janesville should not have an annual fair second to none in the northwest: situated as it is in the center of as fine a country as there is in the world, possessing good accessible grounds, and unsurpassed railroad facilities. This is just the kind of a fair the new directory proposes to give, but the directors must be seconded in their efforts and encouraged by those who should be interested in its success. Considerable more money has been offered in the speed department than ever before, and this will be only one of the many features, as first class attractions will be secured for the amusement of all classes of people, men, women and children. They will be thoroughly advertised and the programme followed as closely as possible. Local merchants in particular should put their shoulder to the wheel and push it along. They should all make exhibits and there ought to be a Janesville day during the fair, when the stores should close during the afternoon and the whole population turn out en masse, not to look at one another, but to view the splendid exhibition that will certainly be given this fall. Put it down on the tablet of your memory that we are to have the big fair this year, and do not hesitate to acquaint people of the fact.

SIXTEEN HOBOES IN A FREE FOR ALL AT MILTON.

Fists Were Reinforced By Knives and One Man, At Least, Was Stabbed—Police Got Two of Them And They Are Jailed—Balance Go Into Camp In the Woods.

Milton police had a lively time with sixteen fighting tramps at the witching hour of midnight last night and as the result two of the hoboos, William Lane and Fred Muller are locked in jail.

The tramps came into Milton on a freight train and they were in good fighting shape when they dropped off the cars. They had stolen a jug of forty rod whisky at Stoughton and had just begun to feel the effects of it when the freight came to a stop at the college town. Hardly had the

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN
THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.
It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

—ONE VOTE FOR—

Of Janesville, Wis.

Very Queer Indeed.

Daily, nay, hourly experienced, are the sensations of the dyspeptic, nervous invalid. Ask him and he will tell you that it is well nigh impossible to describe them. Palpitations of the heart suggest—erroneously—that the organ is affected, buzzing in the ears, a queer metallic taste in the mouth and tingling along the edges of the tongue, restless, broken slumber at night, an inclination to sleep during the day, which disappears when the recurrent position is assumed, frequent uneasiness of the stomach between and after meals when digestion ought to have performed its office. These are a few among the indications of the complaint speedily removable by the use of Hostetter's Stomach Bitters, which also cures and prevents chills and fever, biliousness, constipation, rheumatism, neuralgia and kidney trouble.

A False Diagnosis.
La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals

suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.

Doctor H. R. Fish, of Gravois Mills, Mo., a practicing physician of many years' experience, writes: DeWitt's Witch Hazel Salve has no equal for indolent sores, scalds and burns. It stops pain instantly, heals a burn quickly and leaves no scar. C. D. Stevens.

J. A. Richardson, of Jefferson City, Mo., Chief Enrolling force 38th general assembly of Missouri, writes: I wish to testify to the merits of One Minute Cough Cure. When other so-called cures failed, I obtained almost instant relief and a speedy cure by the use of One Minute Cough cure. C. D. Stevens.

A LOGICAL EXPLANATION.

"Excuse your pardon, doctor, but I don't care to consult you. All I want is a little assistance."—Flegende Blaetter.

A Charge to Keep.

Mrs. Poorman—It has been a hard winter, ma'am. My three grown girls have been very little help to me. The poor things are not strong enough to do washing, and they haven't clothes good enough to apply for any other work.

District Visitor—But you say they have rich relatives; don't they look after them?

Mrs. Poorman (sadly)—Only their morals, ma'am—only their morals.—Puck.

One Sensible Thing.

Second Husband—Did you put a monument over your first husband's grave? Wife—Yes, poor dear; I erected a marble slab twenty feet high above his sacred dust.

Second Husband—What did you inscribe on it? Wife—At rest.

Second Husband—Well, I'm glad to hear of one sensible thing that you have done.—Atlanta Journal.

To Be Sure.

Gaggs—What's the matter? You look glum.

Waggs—Well, that's the way I feel. I've just lost a thousand dollars in a business deal.

Gaggs—Oh, cheer up, old fellow, and take things as they come.

Waggs—Great Scott, man! any fool can take things as they come. What I find it hard to do is to part with things as they go.—Judge.

Conditional Forgiveness.

Young Mr. Hunker had stolen a kiss from Miss Kittish, and she scolded him very properly.

"You'll forgive me, won't you?" asked he.

"Will you promise never to do it again?"

"No."

"Then I forgive you."—Harper's Bazar.

A Triumph of Genius.

"Mamie has stolen a march on all us girls," said Mabel, angrily.

"Why, what's she done?" inquired one of Mabel's sweet friends.

"She sent a twenty-five-pound flour sack to her modiste," said Mabel, with growing anger, "and had it used as a design for the sleeves of her new gown."—Chicago Record.

Family Treasures.

Little Miss Hub—If you come to see me I'll take you to Cambridge and show you our old homestead.

Little Miss Gotham—That will be nice. And if you visit me I'll take you to a cemetery and show you the grave of the janitor of the first flat we ever lived in.—Good News.

De Goodly—Surely you believe that our departed friends think of us with as much affection as they did when they were here?

Old Gayboy—Yes, I'm certain I have many warm friends in another world.—Brooklyn Life.

Many Women Will Recognize It.

[SPECIAL TO OUR LADY READERS.]

"Oh, I am so nervous! No one ever suffered as I do! There isn't a well inch in my whole body! I honestly think my lungs are diseased, my chest pains me so; but I've no cough. I'm so weak at my stomach, and have indigestion horribly.

Then I have palpitation, and my heart hurts me. How I am losing flesh! and this headache nearly kills me; and the backache—Heavens! I had hysterics yesterday.

There is a weight in the lower part of my bowels, bearing down all the time; and there are pains in my groins and thighs. I can't sleep, walk, or sit. I'm diseased all over. The doctor? Oh! he tells me to keep quiet. Such mockery!

Inflammatory and ulcerative conditions at the neck of the womb can produce all the above symptoms in the same person. In fact, there is hardly a part of the body that can escape those sympathetic pains and aches.

No woman should allow herself to reach such a perfection of misery when there is positively no need of it.

Lydia E. Pinkham's Vegetable Compound acts promptly and thoroughly in such cases; strengthens the muscles of the womb; heals all inflammation, and restores that unruly organ to its normal condition. Druggists are selling carloads of it. Mrs. Pinkham, at Lynn, Mass., will gladly and freely answer all letters asking for advice.

Mrs. E. Bishop, 787 Halsey Street, Brooklyn, N.Y., suffered all the above described horrors. Now she is well. Lydia E. Pinkham's Vegetable Compound cured her. Write her about it.

CARE OF EYEBROWS AND LASHES.

Flowers and Lace Wings Are Used to Ornament Coiffures.

The possibilities of the eyebrow and eyelash as factors in facial expression are being more and more appreciated by the disciples of physical culture. They are next in importance to the eye itself. It is indeed claimed by many that the eyeball itself is incapable of expression; that it is the drooping or sudden lifting of the lid which speaks. The ideal brows are arched, well marked, though not heavy and distinctly separated, although indeed the Roman model of beauty included a small forehead and united brows.

The perfect eyelid should form an oblong, for the large, round eye in a circular aperture is indicative of boldness; the small, circular one of pertness. Lashes should be long and silky. The woman who places a just value on her brows is

COIFFURE.

willing to give them some attention. At night, just before retiring, take a little pomatum on the tip of the forefinger and rub it gently into the eyebrow; then lightly pass a towel over it. This is to promote the growth.

In the morning the sticky substance is carefully washed out with a soft cloth and warm water; then a little fragrant eau de cologne is applied, and the tiny silver brush comes into play. It gently smooths and pats the fine hairs into a slender arched line. If this be repeated every morning, a deficient brow will quickly mend its ways and a refractory one be brought into meek submission. Eyelashes may have their ends clipped with the scissors once in every five or six weeks, which is all the treatment they require to make them long and curved.

Among the novelties for wearing in the hair are small clusters of violets arranged on pins to be worn on each side at the back and lace wings similarly mounted for ornamenting the top of the coiffure. The sketch shows a pretty way of dressing the hair for the evening. It is waved and arranged just below the crown of the head, the side locks being allowed to puff out over the ears. The wings are of filigree or spangles.

JUDIC CHOLLET.

BLACK AND COLORED COSTUMES.

Utilitarian and Artistic Possibilities of a Black Serge Gown.

Black is now so much worn that in itself it conveys no idea of bereavement, but crape at once fixes the attention and prevents thoughtless questioning and haphazard remark that might be painful to the wearer. It is usual at present to have gowns for deep mourning made with sleeves entirely of crape, often a yoke as well, or else a wide vest of this material, with either a wide band on the skirt or with deep points up it. Jet is frequently worn with crape dresses when the first month or six weeks of mourning are over. It is allowable now in deepest mourning to wear jet in the bonnet with crape, while in the case of widows a long piece of crape, generally folded over in a coquille, is worn down the back, reaching below the waist. The veil, on the other hand, is quite short.

VIOLET AND BLACK GOWN.

Flowers made of crape are an anomaly never perpetrated in these days. The material is used for bows, loops, folds, bands, but never as a floral or other frivolous kind of trimming. There can be little doubt that crape is finding its way into fashionable favor again, probably because it is consistent with grief stricken feelings as well as for its protective influence in at once showing to all acquaintances that the wearer has had a recent bereavement.

For general wear for women not in mourning a black serge gown is most useful. The skirt should be plain, but the bodice may have a removable vest and collar of velvet, the bodice fastening over the vest at the sides and having a cross garniture of jetted cords and buttons. One advantage attached to this vest arrangement besides its pretty effect is that it allows of the same gown being frequently varied by having several different vests. For instance, a red cloth, a white cloth, a striped silk or terra cotta velvet would go equally well with the black serge and jetted fastenings.

The gown illustrated is of violet eolienne and has a plain godet skirt. The plain corsage has a high collar and epaulettes of black and white satin broche, buttoning at the side and fastened on the shoulders by violet velvet buttons. The tight sleeves have an immense puff above the elbow.

COOK COUNTY SET APART.

Representative Jones of Greene Wants It Provided with a Legislature.

Springfield, Ill., April 12.—A movement was started yesterday in the house by Representative Norman L. Jones of Greene county, which, if carried to completion, will practically sever Cook county from the state of Illinois. Jones' effort is set forth in a joint resolution, which provides that the question of giving Cook county a separate government from that of the remainder of the state shall be submitted to a vote of the people.

Mr. Griffin called up Mr. Kitzmiller's resolution denouncing the pension policy of the present national administration, and Mr. Sharrock (Rep.) made a speech in support of it. The resolution was adopted by a party vote—yeas 89, nays 64.

The resolution was referred to the committee on judiciary. The report of the conference committee on the Anna Insane asylum appropriation bill was concurred in. Mr. Merritt's union label bill was advanced to a third reading. The arbitration bill was made a special order for next Wednesday on third reading. The committee on judiciary reported adversely Mr. Wylie's bill, requiring patients in the state hospitals for the insane to pay for their board and other expenses when they are able to do so. The house refused to concur in the report, and the bill was placed on the calendar.

The senate passed the following bills: Senator Dunlap's appropriating \$1,266,000 for each of the two years 1895 and 1896 for the ordinary expenses of the

state charitable institutions: Senator Herb's, appropriating \$65,000 to erect a monument to the Illinois soldiers killed at the battle of Chickamauga; Senator Munroe's, appropriating \$20,000 to establish and maintain a soldiers' widows' home; Senator Bogardus', for the punishment of train robbers; Senator Sawyer's, providing that a conservator may be appointed on a certificate from the county court where a person has been adjudged insane.

Bills were advanced to third reading as follows: Senator Willoughby's, providing for a poll tax for highway purposes of \$2 per capita, and that it may be abolished by vote of the people; Senator Evans', forbidding railroads to obstruct streets or highways with their trains longer than ten minutes. Senator Paisley's resolution to amend the constitution in regard to the revenue laws came up as a special order. The resolution was lost on a roll call resulting yeas 19, nays 12. He gave notice of a motion to reconsider. The report of the conference committee in regard to the Anna Insane asylum appropriation bill, recommending that the sum appropriated be \$172,000, was adopted. The house resolution that the adjournment until 10 o'clock Wednesday, begin to-day, was concurred in committee bill, providing for the organization of park districts and the transfer of submerged lands. The bill was read, but was prevented from being advanced on account of adjournment. Bills were introduced as follows: By Mr. Sawyer, appropriating \$10,000 to John Henry for injuries received while serving in the state militia during the riots at Chicago.

CHINA GIVEN TIME
TO PLAN FOR PEACEONE MORE DAY IS GRANTED
BY JAPAN.

The Mikado Disposed to Modify His Plans—Result of Russian Protest—The Great Bear of the North Grows When His Approach to the Pacific Is Barred.

Yokohama, April 13.—China is given one more day in which to complete the peace negotiations.

Washington, April 13.—The Japanese legation has received advices from Japan which give color to the belief that the present treaty between the mikado and the Chinese emperor may be merged at an early date into a definite treaty of peace.

The grounds for this hope are only conjectural, but it is guessed here that the Japanese plenipotentiaries will grant or have granted some concessions from the text of the original demands of the mikado, which were five in number:

1. Independence of Korea.
2. Permanent cession of the Island of Formosa to Japan.
3. Indemnity of 200,000,000 taels (Chinese coin worth \$1.33).
4. Permanent occupation of Port Arthur.

EMPEROR MEIJI OF JAPAN.

and the immediately contiguous territory.

5. A new Japan-China treaty opening the interior of China to commerce.

It is given out at the Japanese legation that any concessions which have been made are due to the repeated requests of the Chinese plenipotentiaries. But there is probably a more forceful influence at work than any which can be exerted from Peking. It looks as if Japan were yielding before the hostile attitude of Russia.

It is felt here that Japan cannot afford to antagonize Russia to such an extent as to press for a permanent occupation of Port Arthur and the contiguous territory, because if any power other than China is to control that district Russia must be that power. The czar needs a Pacific seaport and China has none to give that would be a thousandth part as useful to the czar as one on the east coast of Manchuria, which is the Port Arthur territory. Both Russia and China have, therefore, the strongest reasons for opposing this exaction of the mikado.

If the Japanese have modified their demands as to indemnity the pressure must have come from Great Britain acting on behalf of English financial back-

EMPEROR OF CHINA.

ers of the half-insolvent Manchu dynasty. But it is not likely that European interference would be made along that line, as the amount of the indemnity is not exorbitant.

France alone, or chiefly, is interested in the cession of Formosa, which forms naturally a part of the "Island Empire." The question of the independence of Korea cannot be one of prime importance to China.

It is of great moment to Russia, however, because the czar desires a right-of-way through Korea for the great trans-Siberian railway, and the impression has prevailed here that before the mikado stated the conditions of peace he had arrived at an understanding with Russia whereby the latter's right of railway route through the hermit kingdom was to be guaranteed. If this guaranty fails, then Russia will have an additional reason to oppose Japanese aggressions at Port Arthur.

If the money demand—200,000,000 taels—has been modified, little importance is to be attached to the concession, except that China's burden will be lightened.

It looks now as if, barring some unexpected hitch in the negotiations, the end of the China-Japan war had come and a treaty of peace were in sight.

Should this prove the case, the attitude of Russia will have had more to do in bringing it to pass than any appeal of China to the mercy of the victor.

City Treasurer Guilty.

Princeton, Ill., April 13.—City Treasurer James Maranda of Spring Valley pleaded guilty to four indictments for malfeasance in office in the county court here. The penalty will be fixed by the court. His prosecution grew out of a shortage of \$3,000 in the city accounts.

BIG LOSS IN CATTLE.

One Million Are Said to Have Perished in Texas.

St. Louis, Mo., April 13.—In view of general inquiry as to the cause of the prevailing high price of beef a Chicago Tribune correspondent has taken a trip through the great cattle-producing country, the southwest. It has been learned that the supply of cattle has dwindled to an extraordinary extent. Ranchmen say the supply has been curtailed because of a reaction resulting from overproduction. The acknowledged brood belt is bounded by San Antonio, Texas, on the north, the Rio Grande river on the west, and Corpus Christi Bay on the southeast. The correspondent coming through this country, on the Arkansas road Wednesday, failed to see a station at which there were not flat cars filled with cattle bones ready for shipment to carbon and charcoal manufacturers. Live stock authorities in that country estimate that no fewer than 1,000,000 cattle perished during the last year as a result of drought affecting both grass and water.

SURPRISE FOR CREDITORS.

Pool Books Tell Nothing of Irwin's Alleged Chicago Operations.

Pittsburg, Pa., April 13.—John D. Bailey, receiver for George M. Irwin's discretionary pool, yesterday sprung a surprise by announcing that the books which Mr. Irwin turned over to him contain no record of the transactions on the Chicago board of trade, in which the funds of the pool are alleged to have been lost. Receiver Bailey believes there is another set of books and has served notice on Irwin to produce the other books inside of thirty-six hours. Mr. Irwin will appeal to court today. The books now in the hands of the receiver show that in four months Irwin deposited in the Lincoln National bank over \$1,000,000. The books also show that the total amount of money put into this pool by depositors was \$2,700,000.

QUIET AT CINCINNATI, IOWA.

Company of the State Militia on the Ground to Suppress Any Outbreak.

Des Moines, Iowa, April 12.—The governor was notified yesterday that the Centerville company of the Iowa National guards had been called to Cincinnati to quell a disturbance by the miners. All is quiet now and it is believed the company will be able to control any riotous outbreaks.

The trouble originated in an attempt of the miners to burn the shaft. The sheriff called out the company in his own county, which was all he could do, as the governor was out of the city and could not be reached. No further trouble is anticipated.

KILLED IN SELF DEFENSE.

Covington Coroner Investigates Shooting of Banker Sanford by Senator Goebel.

Cincinnati, April 12.—After hearing witnesses all day the coroner at Covington, Ky., rendered a verdict of self-defense in the case of Senator William Goebel, who killed J. L. Sanford. The preliminary hearing of Goebel before the police judge is set for tomorrow, when friends of the dead banker say the will produce evidence to show a case of assassination.

Pieces of the Chicora Found.

Benton Harbor, Mich., April 13.—The fishing tug Sir Arthur of St. Joe brought in from mid lake yesterday a piece of the Chicora's bulwarks forward with the letters "Chic" on it. In case of rain all exercises will take place at Chattanooga under cover of adequate capacity, to be provided as a providential measure. The secretary will arrange to have all the armies represented in the battles participate in the dedication.

The executive board of the latter is in session here now, and Jacob Tazelaar of Grand Rapids, Mich., general organizer of the painters and decorators, who arrived to-day, says there are about 10,000 in each organization. Both will on withdrawal affiliate with an American Federation of building trades.

Little Rock University Is Closed.

Little Rock, Ark., April 13.—The trouble involving the fortunes of the Little Rock university has finally resulted in that institution being closed. When the recent troubles had differences arose between President Shedd and the students, resulting in the refusal of the latter to remain in the school while he was president, the faculty endeavored to continue school, but President Shedd locked and barred the doors of the recitation rooms, gave the resident students notice to leave the building within four days, notified parents of day pupils to keep their children away if they wished to avoid trouble, and kept a deputy sheriff on the premises to enforce his commands.

STRIKES IN THE WAY
OF ALL BUSINESSDISTURBING FEATURES IN
BUSINESS CONDITIONS.

On the Whole Some Improvement Is Shown Though Progress Is Slow—Prices of Staple Commodities Average a Shade Higher Than a Year Ago—The Failures.

New York, April 13.—R. G. Dun & Co.'s Weekly Review of Trade says: "Progress toward better business conditions, but it is slow and meets many obstacles. In speculative aspects and in wholesale demand for goods the week shows improvement. Money markets are undisturbed and a little more active. But among the chief obstacles is the anxiety of operatives to secure better wages, even while many manufacturing works are running without profit and others at the risk of loss. In a number of establishments better wages have been conceded, thus increasing the purchasing power of the people, but strikes have largely overbalanced settlements, several of importance having thrown about 12,000 workers out of employment this week. Retail trade has improved on the whole since March, as the approach of Easter brings more business, but distribution to individual consumers still lags behind purchases of jobbers and such demand for products as springs from building and other investments looking into the future. Crop prospects will greatly affect the course of trade for some months, and the government report had little influence to discourage. For consumers the worst feature is the rapid advance in meats."

"For the first time in a long period prices of commodities average a shade higher than a year ago, and in Great Britain also, owing to different causes, a slight advance occurred in March. On both sides of the ocean the lowest level ever known may naturally be followed by some rise. Wheat has yielded nearly a cent, although Atlantic exports for two weeks have been 3,706,643 bushels, flour included, against 3,599,688 last year, with western receipts only 2,088,467, against 4,223,434 last year. Receipts of corn are about half and exports about a fifth of last year's. Decrease in receipts of cattle are exaggerated, 659,406 having arrived at Chicago, against 789,543 to date last year, and the prevalent opinion is that Western packers are helping nature to some extent."

"The output of pig iron April 1 was 158,132 tons weekly, practically the same as March 1, with a decrease of 1,090 tons in unsold stock during the month."

Sales of wool are particularly interesting, amounting for the week to 6,930,290 pounds, and for five weeks previous to 25,821,200, against 25,277,576 in the same week of 1892. No improvement in prices appears, and domestic wool does not respond to recent advances in foreign markets. The low price encouraged manufacturers to compete much more vigorously with the foreign goods of many kinds than they had expected, and for the medium and cheaper grades of goods they have more than the usual demand because purchases of consumers have for two years been comparatively small. The better goods fare not so well, foreign competition being more effective, but there is a good demand for dress goods. In cottons continued strength appears, with further occasional advances of a quarter and an eighth in print cloths, and the aggregate is fair. Many agents are sold well ahead."

"Failures for the week were 207 in the United States, against 218 last year, and 27 in Canada, against 34 last year."

VETERANS INDIGNANT.

Revolt of Philadelphia Poets Against Favoritism as to Officers.

Philadelphia, Pa., April 13.—Because Assistant Adjt.-Gen. Morrison of Pennsylvania holds both that office at \$2,500 a year, and the chief clerkship in the tax office at \$1,800, when other prominent Grand Army of the Republic veterans cannot get one position, there was a revolt of Pennsylvania department posts in Philadelphia last night. Posts No. 94, 10, 35, 36, 80, 24, and 363 united to form the Eastern association to "guard against the avarice of men at headquarters," as the prime mover of the revolt put it. Several hot speeches were made concerning the alleged department favoritism. The revolting posts elected a president, vice president, secretary and treasurer of their "Eastern association," and expect to perfect their organization later.

Southern Farms for Western Men.

Savannah, Ga., April 13.—J. V. Curran and R. W. Randall, representing a Chicago syndicate, are negotiating for 100,000 acres of land in Montgomery county on which colonists from the West are to be settled. It is proposed to locate many ex-federal soldiers and their families there. The syndicate represents subscriptions of \$500,000. Nebraska, Indiana, Illinois, Michigan, Minnesota and Iowa are to furnish the colonists. Ex-Gov. Northern of Georgia is one of the prime movers.

Alleged Bank Wrecker Arrested.

St. Paul, Minn., April 13.—W. F. Holmes who, with \$40,000 overdrafts, wrecked the Merchants' bank of Lake City, of which he was president, was arrested in Minneapolis last night and taken to Lake City today. Holmes waived examination and was released on \$7,500 bonds. Warrants are out for the arrest of Walter N. Holmes, cashier, and C. H. Holmes, assistant cashier of the same bank. They are sons of the president.

Railroad Demurs to Income Tax.

trace him from Buffalo.

The directors of the Illinois Central railroad to the applicants of Charles Allen for an order to restrain them from voluntarily paying the income tax on the dividends of the company was filed today. The demurer alleges want of ground for granting the order and prays that the bill be dismissed.

ILLINOIS CAPITOL IS A FIRE.

North Wing of the \$5,000,000 Building Mysteriously Ignited.

Springfield, Ill., April 13.—The north wing of the state capitol is burning. The building cost \$5,000,000. The cause of the blaze is unknown.

REGARDS IT AS UNWISE.

American Protectorate Over Venezuela Is Not Necessary.

City of Mexico, April 13.—The suggestion that the United States acquire a protectorate over Venezuela by consent of the Venezuelan people in order the better to resist British aggression there is not approved here or in Central America. Statesmen in this country would regard such a move as unwise and unnecessary. As long as the United States maintains the Monroe doctrine, the United States is considered amply able under that doctrine, which is a part of the unwritten law of this hemisphere, to keep England from taking territory from Venezuela or Nicaragua. Mexican public men think England's aim in her policy toward Nicaragua is to prevent the American government exercising exclusive dominion over the ship canal.

LIVING IN BUFFALO.

Chief Operator in the Postage Stamp Swindle Gets a Hint in Time.

Buffalo, N. Y., April 13.—While the United States officials were searching the country for George Morrison, the chief operator in the postage stamp swindle, he was living quietly in his apartments in South Division street, this city. Up to Wednesday he called regularly once a day at the general delivery for his mail. Morrison evidently became frightened Wednesday and left town. Postoffice Inspector Ryan, who came here Thursday, is said to have found the rooms where Morrison lived in South Division street, but the department officials are utterly at a loss to trace him from Buffalo.

Iron Manufacturers Elect Officers.

Cleveland, Ohio, April 13.—The bar iron manufacturers of Ohio, Indiana, and several other states met here yesterday. An organization was completed at the morning session by the election of the following officers: President, W. E. Taylor of the Union Iron company of Youngstown, Ohio; vice-president, Maj. Collins of the Central Iron and Steel company, Brazil, Ind.; secretary, George W. Clarke of the Mitchell-Trantor company, Cincinnati, Ohio; treasurer, James Corns of Joseph Corns & Co., Massillon, Ohio; executive committee, W. E. Taylor, Maj. Collins, George W. Clarke, Scott Bonnell, and Frank B. Felt. At the afternoon session the chief topic under discussion was the present low rate on bar iron and the advisability of making a general advance on the same.

Deny Mrs. Bolton's Confession.

Anderson, Ind., April 13.—Daniel Kelley was arrested at Leiter yesterday, charged with complicity in the Foust murder. A week ago George Hires was found guilty by a jury of murdering William Foust at the house of Maggie Bolton, in Elwood, a year ago. Two days after the trial of Hires Mrs. Bolton made a confession, in which she says she fired the fatal shot with a revolver borrowed from Kelley. Detectives have been on his trail ever since. He and Mrs. Bolton's two sons were present at the shooting. The latter says her confession is not true. They assert the confession was secured in order to shield others.

Epidemic of Flat-House Fires.

New York, April 13.—Fire was discovered at 7 o'clock last night in the five-story flat house, Ninety-second street and Columbus avenue, and occupied by ten families. Ten people escaped through the hallways of the house. The others were carried down the fire escapes. The building is worth \$150,000, but the damage will not exceed \$6,000. Everything was insured. All along the avenue, which is lined with apartment houses, the residents were panic-stricken. There have been six fires in the vicinity within forty hours, three of them flat houses.

Wrapped in the Confederate Flag.

Richmond, Va., April 13.—The body of Jefferson Davis, Jr., was reinterred at Hollywood yesterday beside that of his father. Young Davis died in Memphis a few years ago of yellow fever. Mrs. Davis and Miss Winnie came on from New York to the interment. Simple religious services were conducted by Rev. Dr. Hartley Carmichael, rector of Old St. Paul's. On the bier rested a silk confederate flag, the same used when the body of Jefferson Davis was interred. All the dead Davis children are now interred at Hollywood.

Banker's Son Attempts Murder.

Minerva, Ohio, April 13.—John Yengling, son of G. F. Yengling, president of the Minerva Banking company, quarreled with his wife last evening and attempted to shoot her. She escaped from the house, when Yengling began to beat his little daughter. Thomas E. Booth was attracted by the screams and attempted to rescue the child. Yengling pulled a revolver, firing twice, one bullet entering Booth's head. Booth's condition is critical. Yengling is in jail, strongly guarded.

Kills Two Rioters in Self-Defense.

St. Louis, Mo., April 13.—In a riot between native and foreign railroad laborers at Sliam Springs, Ark., last night, several shots were exchanged and one person was badly wounded. A federal deputy marshal attempted to quell the disturbance. He was set upon by four of the rioters and was compelled to kill two of them.

TWO FIREMEN HURT
AT MENOMINEE, MICH.ENGINE TEAM RUNS AWAY
SMASHING EVERYTHING.

Fireman Benthouse Probably Fatally Injured While Driver Chas. Hanson Had a Leg and One Arm Broken—Blaze Destroyed Fred Scales' Saloon Causing a Loss of \$3000.

Menominee, April 13.—Fire in Menominee, this morning, resulted in the destruction of Fred Scales' saloon building and a general smash up of fire apparatus. The building caught fire and in responding to the alarm the team on the engine ran away. Fireman Benthouse had three ribs broken and received other injuries from which he may die, while Driver Chas. Hanson had a leg and arm broken beside being severely bruised. The loss on account of the fire is about \$3,000.

Menominee, Wis., April 13.—Dorchester, a small town on the Wisconsin Central railroad in Clark county, was swept by fire Thursday and nearly one-half of the business portion destroyed. The losses are as follows: L. M. Kleffman, meat market and dwelling; Peter Schaefer, store, hotel, postoffice, barber shop; John Schaefer, store and merchandise; Fred Gotwasser, hardware and two buildings; Anna Gotwasser, millinery; Mat Oberillings, saloon; John Berger, hotel; Charles Hubbard, hotel and saloon; Frank Nagel, barber; Henry Hogen, saloon; E. L. Swarthout, dwelling; L. M. Kleffman lost \$600 in currency. The total loss is \$30,000, partly insured.

MARTI IS NOW IN CONTROL.

People Are Not Satisfied With the Selection, However, and Complain.

Havana, April 13.—Marti, who was selected as president of the new republic at the convention held at Guatanaro, province of Puerto Principe, has been proclaimed by the insurgents as their chief executive.

It cannot be denied that considerable dissatisfaction exists among the rebels because of Marti's election. He lacks the popularity of Maceo or Gomez, yet he is generally regarded as the most learned man among the rebels. Maceo declined the honor in a most positive manner, as he desires to be in the field when the fighting begins.

Martinez Campos is expected to land at Manzanillo next Sunday. Guerra is on the south side of the island with a body of well armed men, numbering in the neighborhood of 1,200. He is now operating in the vicinity of Manzanillo. General Palacio is entrenched in the mountains with about 800 warriors, just back of El Cobre. From El Cobre to Jiguani, where the Ortiz brothers are in command of a thousand or more insurgents, is a distance of about 100 miles.

Maceo will evidently meet the other insurgent commanders near Jiguani, between that city and Holguin. The Spanish soldiers are insufficient in numbers to impede their progress. Spaniards on the island have the most implicit confidence in Campos. News from San Juan, Porto Rico, states that Campos arrived there yesterday on his way to Cuba.

THE MONTEREY SLIPS AWAY.

Much Gossip Regarding the Orders Under Which She Sails.

San Diego, Cal., April 13.—The coast defense vessel Monterey departed from here with more secrecy than is usually the case when a vessel leaves on a cruise. A hint was dropped by one of the officers before sailing that the vessel was going to Corinto and that the authorities at Washington indulged in a little fiction regarding a cruise to Callao to keep inquisitive people off the scent. The cruiser Olympia is not expected until next week and it is stated that her stay will be as brief as the Monterey's, merely long enough to replenish coal, and that she will then hurry away toward Nicaragua.

Going to Meet the Royal Arthur.

San Francisco, Cal., April 13.—"The Monterey is undoubtedly going to Corinto, Nicaragua, and not to Callao," said Dr. Highbett, surgeon of the Benington, now at Mare Island. "No matter what the dispatches may say, we in the navy feel sure that she is going down the coast to meet the Royal Arthur, the large English cruiser, which is headed that way. The Monterey is probably sent to watch the big English ship."

BANDITS ROB A POSTOFFICE

Four Men Make a Daring Raid at Montpelier, Ind.

Muncie, Ind., April 13.—The town of Montpelier, north of here, was in an uproar of excitement early yesterday morning while a daring robbery was being perpetrated in the heart of the city. A stranger approached the night watchman and walked with him near the postoffice, where the stranger suddenly drew a pair of revolvers and demanded that the peace guardian throw up his hands. He did so, and then, covered by the revolvers, he saw three other men burst open the door leading into the postoffice, drill holes in the safe and burst it to pieces with powder. As soon as the contents of the safe were gathered up the party mounted horses, fired a volley into the air from their revolvers and rode out of town. The explosion broke many panes of window glass and the postoffice building was wrecked. By the time the people had started to the scene the robbers were out of reach. Postmaster McCulloch reports that \$300 and a large number of postage stamps were taken.

NEW RULES ARE OUT FOR INCOME TAX

CONFORM TO THE SUPREME
COURT'S CHANGES.

Collectors are Notified that All Rents And Interest on Bonds, etc., Are Exempt—And Such Amounts Must Be Subtracted From Returns Made—Speculation Now Set at Rest.

"Now that the supreme court has riddled the income tax measure until it won't hold water, I'd like to know what I am to do about it." That is a remark that is frequently heard now-a-days. The collectors have been notified of the changes and the remedy therefore is in the following telegraphic communication:

"Interest received from state, county and municipal bonds or securities and rents from real estate are not taxable as income, but the persons and corporations receiving said interest or rents shall include in their returns as receipts the full amount thereof received or accrued within the year for which return is made, and shall deduct the same as not subject to taxation. The amounts actually paid for taxes, insurance and repairs on real estate may be deducted from incomes, as heretofore provided for by the law and regulations.

"All persons and corporations that have heretofore rendered income tax returns for the year 1894 to a collector or deputy collector, including therein interest received from state, county or municipal bonds, or from rents from real estate, may have the amounts of said interest and rents deducted from their incomes, by duly making an affidavit, and delivering the same to the collector or deputy collector to whom the original return was rendered. Said affidavit shall be as follows:

"State of.....county of..... ss.
....., being duly sworn, deposes and says that on and between the 1st day of January, 1894, and the 31st day of December, 1894,..... actually received the sum of..... dollars (\$.....) as interest on the following described..... bonds..... and that on and between the dates aforesaid..... actually received the sum of..... (\$.....) from rent of the following described real estate..... and that no part of said rent was received for the use of my personal property or franchise or for any other purpose whatever except as rent for said described real estate, and that the entire sum and sums aforesaid was included as income in..... in come tax return, heretofore delivered to..... collector, that no part of said sum or sums was deducted or caused to be deducted from the income as stated in said return, and, therefore, this affidavit is made that the amount of said interest and rents received and included in said return may be properly deducted thereon. The affidavit furthermore submits this affidavit as an amendment to his said income tax return, and demands that his return be corrected by the deduction of..... dollars (\$.....), from the tax appearing upon his return, in conformity with the facts stated therein..... subscribed and sworn to before me, this..... day of..... 1895.....

"The collector upon receipt of the foregoing affidavit shall attach such affidavit to the return of the affiant heretofore made, and shall make the correction in said return in conformity with the facts stated in said affidavit, and forward said amended return with the affidavit attached, to the commissioner of internal revenue."

Full off with starch and gloss serene,
The linen collar starts the morn;
Full off at noontime it is seen
All wrinkled, wrinkled and forlorn.

That's what you must expect of such a collar; it's the linen of it. The stand-up collars won't stand up, and the turn-down collars will wilt down. The easy, cheap, and pleasant way out of this is to wear "CELLULOID" COLLARS AND CUFFS. These goods are made by covering linen collars or cuffs on both sides with "CELLULOID," thus making them strong and durable, and waterproof, not affected by heat or moisture. There are no other waterproof goods made this way, consequently none that can wear so well. When soiled simply wipe them off with a wet cloth. Every piece of the genuine is stamped like this:

THE REFORM MOVEMENT.

The tidal wave of reform, that started last year in New York as the result of the Rev. Parkhurst's crusade, is extending to all parts of the country. It is especially noticed in the larger cities, where organizations non-partisan in character, and under a variety of titles have been formed, and rigorously maintained, having for their sole object municipal reform. Boston, Philadelphia, New York, St. Louis, Cincinnati, Chicago and a dozen other cities are in line for active work, and the same spirit is extending to smaller municipalities.

These reform measures are very significant. They mean that the moral sense of public sentiment has become thoroughly aroused, and that wholesome government is considered more important than partisan success.

The time has come when good citizenship should assert its rights and the test of strength has become so satisfactory that no city need hesitate hereafter to declare its ability to govern its affairs honestly. This is eminently right, for more important than state or national government, to the welfare of every citizen, is good municipal government. Important to the home, because of the moral influence; important to society because of the purer atmosphere; important to the tax payer, and business interests, because of the economy that naturally results. Two or three causes, are responsible for this reform movement. The Chicago strike and Coxey demonstrations, indicated very clearly, that lying just beneath the surface, ready for action at the dictation of a Debs, or any other dave-devil leader, was an element that was not only a menace to society, but dangerous in the extreme to the welfare of the nation. Thinking people realized as never before that radical changes were necessary for self protection.

Another factor that entered largely into the movement, giving character and stability, is the interest manifested by the great christian church that founded the nation, and carefully guarded its interest during its infancy, and earlier years of development. The fact that this tide of religious sentiment has been directed into practical channels is very gratifying, and means much more than appears on the surface. The criticism has often been made that the church was too pure to mingle with the affairs of government. "The clergy could not be expected to take even a passive interest in municipal matters, and the good brother who lived by faith and prayer was more interested in eternity than time."

This kind of criticism was not entirely unfounded. Any close observer will admit, that during the past two years the church at large, has devoted much time and energy to third party prohibition, woman suffrage and other impractical movements, neglecting to a greater or less extent the vital questions of every day experience, with which struggling humanity contends. Municipal government has been left largely to the ward politicians, and the responsibilities of good citizenship have too frequently been ignored. That this sort of neglect amounts to a sin, needs no argument to prove. The christian church and good government are inseparable. This statement may not be very complimentary to the democratic party, but it is nevertheless true. The God of nations has some rights on this mundane sphere, that no party can afford to ignore.

The name of Dr. Parkhurst will live in American history as long as time endures. He will be referred to as the christian clergyman who possessed the inclination, the ability, and the nerve to inaugurate and set in motion the great reform movement of 1894-95; a movement that is destined to revolutionize municipal government and forever silence the argument that a man cannot be elected to positions of honor and trust, because he is too good to command the popular vote. The reform movement has come to stay. Janesville and every other municipality in the land will be better governed when partisanship is sacrificed to good citizenship, and when arrayed against immorality, sin and lawlessness stands the solid column of law abiding citizens, demanding the enforcement of law and pure and wholesome administration. In the good time coming all this will be realized, if the church stays by the work so thoroughly inaugurated, and maintain her inherited right to shape the affairs of government.

BIG DAMAGES.

Seeks To Recover For The Loss of His Arm at the Lower Cotton Mill—Alfred P. Sellick's Action For Damages Sustained By His Wife Also Begun—City News.

PAYERS in two important damage suits were filed in the circuit court today for place on the calendar for the April term of court. The first was that of City Clerk Elect Badger against the Janesville Cotton Mills Company, Badger claiming damages in the sum of \$20,000 for the loss of his left arm while in the employ of the defendant company. The second was that of Alfred P. Sellick against the city of Janesville, and W. H. and E. D. Tallman. This is for \$5000 damages claimed for injuries sustained by plaintiff's wife by a fall on a defective sidewalk on South River street. Fethers, Jeffris, Fifield & Matheson are attorneys for the plaintiff in both cases. Judge Bennett issued an order this morning excusing the petit jurors drawn for the April term, until May 6, owing to the fact that a number of attorneys who have jury cases will be engaged in the supreme court up to that time.

RYAN SENT TO JAIL FOR VOTING TWICE

BELOIT MAN SENTENCED TO
FOUR MONTHS' SERVICE.

Pleaded Guilty to The Charge of Casting Two Ballots at the Line City Municipal Election And the Only Explanation Offered Was That He Was Intoxicated.

Because he voted twice at Beloit's municipal election Dennis Ryan, alias "Rats," will serve four months in the county jail.

Ryan was brought into the municipal court this morning and pleaded guilty to the information filed by District Attorney Jackson. As an excuse for committing the crime, Ryan told the court that he was drunk and did not realize what he was doing. He voted in the Fourth ward first, and then went to the booth in the First ward and voted again. Judge Phelps stated the penalty to be not more than three years nor less than one year at hard labor in the state prison, or not more than one year in the county jail. This penalty appeared to stagger the young man. He made promises never to drink again; said that he had a mother to support, and agreed to be a good citizen if he could only escape imprisonment.

"The sentence of the court is," said Judge Phelps, "that you be confined in the county jail for four months."

The case of the state against C. D. and S. Johnson, the two Beloit saloon keepers who are said to be implicated in the Northwestern car burglary, will come up for trial in the municipal court on Monday morning at 10 o'clock. The Johnsons had an examination at Beloit last week, and were held for trial, the papers in the case being received by Clerk Williams, of the municipal court.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN
THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given to the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each non-subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

—ONE VOTE FOR—

Of Janesville, Wis.

Very Queer Indeed,

Daily, nay, hourly experienced, are the sensations of the dyspeptic nervous invalid. Ask him and he will tell you that it is well nigh impossible to describe them. Palpitations of the heart suggest—erroneously—that the organ is affected, buzzing in the ears, a queer metallic taste in the mouth and tingling along the edges of the tongue, restless, broken slumber at night, an inclination to sleep during the day, which disappears when the recurrent posture is assumed, frequent uneasiness of the stomach between and after meals when digestion ought to have performed its office. These are a few among the indications of the complaint speedily removable by the use of Hostetter's Stomach Bitters, which also cures and prevents cholera and fever, biliousness, constipation, rheumatism, neuralgia and kidney trouble.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals

suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.

The presents were such as betokened the highest appreciation of the bride and groom by the donors. A SURGEON'S KNIFE
gives you a feeling of horror and dread. There is no longer necessity for its use in many diseases formerly regarded as incurable without cutting.
The Triumph of Conservative Surgery is well illustrated by the fact that **RUPTURE** or **BRANCH**, is now radically cured without the knife and without pain. Clumsy, chafing trusses can be thrown away! They never cure but often induce inflammation, strangulation and death.
TUMORS (Ovarian, Fibroid, Uterine) removed without the peril of cutting operations.
PILE TUMORS, however large, and other diseases of the lower bowel, are permanently cured without pain or resort to the knife.
STONE in the Bladder, no matter how large, is how large, is crushed, pulverized, washed out and perfectly removed without cutting.
STRICTURE of Urinary Passage is cured in hundreds of cases. For pamphlet, references and all particulars, send 10 cents (in stamps) to World's Dispensary Medical Association, 623 Main St., Buffalo, N. Y.

Boston's Proposed Skyscraper.
The greatest amusement enterprise now under consideration in the United States is the Harriman tower and amphitheater which Boston capitalists are talking of erecting at the end of the Marine park pier, City Point, South Boston. An immense dome shaped

PROPOSED TOWER AND AMPHITHEATER. structure of steel is to be built 300 feet into the air, and from the top of the dome a tower will rise 200 feet farther toward the clouds, making the entire height of the novel structure 500 feet. Spiral railways, a mammoth amphitheater for sports, a "midway" 300 feet in the air and an observatory to crown all are among the attractions.

Helped Capture Mason and Slidell.

A Memorial to Mrs. Browning.

Ledbury, Herefordshire, England, the birthplace of Elizabeth Barrett Browning, is about to erect a town hall and clock tower as a memorial to the author of "Aurora Leigh." Mrs. Browning lived at Hope End, Ledbury, the first 20 years of her life, and in the old par-

ish churchyard her father, mother and sister are buried. Robert Barrett Browning, Mrs. Browning's son, still lives in the Rezzonico palace his father bought in Venice, and his idea of a fitting memorial for his talented mother is more poetical than that of the good people of Ledbury. He has converted a little chapel in the old palace into a memorial room, where a Venetian lamp is kept burning night and day.

Inventor of the Whaleback.

Alexander McDougall is the name of the man who invented the now famous "whaleback" type of vessel. He was born in Scotland and came to America in his youth. In 1882 he settled in Duluth and engaged in business as a shipping agent. He worked many years on his invention, but found it difficult to interest any one in his scheme. Indeed everybody laughed at it. At last, however, he got a little company organized to build a whaleback, his idea first being to construct barges only. The first craft was the famous 101, and though it was a queer looking boat it was a success in that it would carry more freight than any other craft of the same cost. At the present time there are more than 40 whalebacks afloat on the lakes and the Atlantic, and Mr. McDougall and all who went in with him have won great wealth.

Dr. Sharp has for 20 years made a Special Study and Practice of these Maladies which have proved such stumbling blocks to the medical profession. More failures are recorded in these three lines of practice than in all the 1000 remaining diseases to which the human race is subject.

The doctor's success is phenomenal in his chosen field.

He Absolutely Cures 98 per cent of the cases he accepts for treatment.

This high percentage is in part due to his rejection of all incurable ones. So there are no experiments and but few failures.
